

ALUMONDE RING SIZE GUIDE

Discovering your size via a ring you already own

Please place a ring you already own onto the sizing circles below.
Find your ideal size by discovering which of these circles best aligns
with the inside edge of your chosen ring

Discovering your size via our printable ring sizer

- ~ Print this document onto an A4-sized piece of paper, making sure not to select 'Fit to page/printable area' on your printer
- ~ Carefully cut out the printed sizer, making sure to snip a slot where indicated
- ~ Wrap the sizer around your chosen finger and carefully pull the end through this slot
- ~ Making sure to adjust until you have a comfortable fit, determine your size by reading the letter the arrow is pointing to

Please note: Pulling the sizer too tight will display the incorrect size.
The sizer is most accurate when adjusted so it can slip over your knuckle comfortably
